	Certain observations on the international application
Roy No VIII	Certain observations on the international appropria

The following observations on the clarity of the claims, description, and drawings or on the questions whether the claims are fully supported by the description, are made:

Claims 5, 9, 15, 26, 32, 38, 54, and 79 are objected to under PCT Rule 66.2(a)(v) as lacking clarity under PCT Article 6 because the claims are indefinite for the following reason(s): Claims 5, 15, 26, and 38 each lack a proper antecedent for "said rotor". Claims 9, 32, 54, and 79 each lack a proper antecedent for "said cylindrical member".
